## **CONCLUSION :**

Today we look forward with a sense of hope, towards greater growth and progress.

We have wholeheartedly completed the task of reaping the harvest of a successful academic year. We invoke the blessings of Lord Almighty to accomplish more in the years to come.

Today we are celebrating the 64<sup>th</sup> College Day happily under the president ship of Dr.C.Veerabahu, Principal, V.O.Chidambaram College. I thank him for accepting our invitation to grace the function.

All these achievements of the college were possible only because of the commitment of VOCCE family.

In this occasion it is our duty to express our sincere thanks and heartfelt gratitude to the continuous encouragement, selfless service and guidance from our management particularly we are indebted to our Hon.President who brings his blessings every day, every moment we experience his care and protection. And our Secretary who spend a considerable part of his prime time for the efficient functioning of the college, without whose help we would have not been in a position to maintain high standard of education and discipline in this great institution I also thank the members of V.O.C. Educational Society for their constant encouragement.

I express my thanks to faculty members, non- teaching staff, students-teachers and our well-wishers. I thank each and every one of you for your gracious presence.

I am sure that our collective endeavor shall take V.O.Chidambaram College of Education to greater heights and commit ourselves to do our best to serve our society through quality education.

We take this opportunity to congratulate the trainees for their excellent performance and warm wishes for their bright future ahead. Hope all their dreams and aspirations come true and pray the almighty to guide these trainees in the right path and make them worthy for this society.

Last but not least, I thank the Almighty for his abundant blessings and guidance in the future in the right direction.

With the following few words I conclude, In the words of Jean Piaget “The goal of education is not to increase the amount of knowledge but to create the possibilities for a child to invent and discover, to create men who are capable of doing new things”. Our founder Secretary kulapathy APCVeerabahu echoed the same outcome of education in different words “Make every teacher a success and no teacher a failure.” We have a great mission ahead and it is to help our students learn the right thing and enable them to manifest what they have learnt. This manifestation of perfection is possible if our minds and hearts are united in marching towards the goal of our founder tamilavel.

**Let us continue our march and achieve the goal. Thank you. Jai Hind!**
